PREFACE.

This volume provides references, in the form of a general Alphabetical Index to all proceedings of the House of Commons, and to the Sessional Papers of the Parliament of Canada from the year 1891 to the year 1903, inclusive. It is the third of a series, the first of which embraces from 1867 to 1876, inclusive; and the second from 1877 to 1900, inclusive.

The work, in accordance with instructions, has been so prepared as to cover every subject referred to in the Journals during the above-mentioned period. All matters relating to the same subject are brought together under one head, and the record of each is made as complete as possible with references and cross-references.

The whole has been carefully prepared under the direction of Dr. Flint, the Clerk of the House, in accordance with the recommendation of the Joint Committee of the Senate and House of Commons on the Printing of Parliament, presented on the 15th June, 1904, and concurred in by both Houses.

OTTAWA, January 16, 1905.

44. That he had issued his Warrant to the Clerk of the Crown in Chancery to alter a Return to a Writ of Election, 110—(1892.)
45. That he had withheld the issue of his Warrant for a new election in a certain constituency, owing to the prevalence of corrupt practices in the last election, 333. Authorized to issue his Warrant, 372—(1892.)
46. That he had received the resignation of a member, but owing to an irregularity in the form, had not issued a new writ, 9—(1899.)
47. That he had withheld his Warrant for a new writ in a certain case, 39. Subsequently issued, 70.—(1901.)
48. That he had withheld his Warrant in a certain case, 32. Subsequently issued, 97, 102—(1903.)

III. SPEAKER'S DECISIONS ON QUESTIONS OF FORM AND ORDER:

1891.

49. A motion being made to rescind an Order of the House permitting witnesses before a Select Committee to be examined under oath, as the Order was made without the recommendation of the Committee, and objection being taken thereto on the ground of want of notice; Mr. Speaker decided that the objection was well taken, 312.
50. A motion being made to suspend Rule 94 and to have certain evidence printed for the use of Members, and objection being taken thereto on the ground of want of notice; Mr. Speaker decided that the objection was well taken, and that the motion could not be put, 340.

III. SPEAKER'S DECISIONS ON QUESTIONS OF FORM AND ORDER—*Continued.*1891—*Continued.*

51. A motion being made to refer all accounts for salaries, &c., Post Office Department, to the Committee on Public Accounts, and objection being taken thereto on the ground of want of notice; Mr. Speaker decided that the objection was well taken and the motion could not be put, 345.
52. A motion being made to refer certain accounts of Messrs. Bourcier & Co., for goods supplied to the Public Works Department, to the Committee on Public Accounts, and objection being taken thereto on the ground of want of notice; Mr. Speaker decided that the objection was well taken and that the motion could not be put, 411.
53. A motion to adjourn the House having been made by a Member whose motion to adjourn the Debate on a question had just been negatived, and objection being taken thereto, on the ground that the Member having made a motion for the adjournment of the Debate had spoken on the question and could not now make a second motion; Mr. Speaker decided that the objection was well taken and that the Member could not move the adjournment of the House at that stage, 526.

1892.

54. A motion being made for the third reading of a Bill and an amendment being offered to recommit the Bill so as to provide that all dues collected thereunder should be paid over to the province where collected; Mr. Speaker decided, that the amendment could not be put, because it disposed of the Public Revenues without the recommendation of the Crown, as required by the B.N.A. Act of 1867, 482.

1893.

55. A Resolution providing for the payment of two Commissioners to the World's Columbian Exposition, having been reported from Committee of the Whole, and a motion having been made for the second reading thereof; Mr. Charlton moved in amendment that certain words be added providing for the closing of the Canadian Section on Sundays, Mr. Speaker ruled the amendment out of order, because it was not relevant to the subject-matter of the resolution, and a similar question was already substantially on the Order Paper in the honourable gentleman's name, 208.

1894.

56. A motion being made to refer certain papers to the Committee on Public Accounts, and objection being taken thereto on the ground of want of notice; Mr. Speaker decided that the objection was well taken and that the motion could not be put, 131.
57. A motion having been made to place certain Private Bills on the Order Paper for consideration in Committee of the Whole on the same day as reported, and objection being taken thereto, Mr. Speaker decided that the motion was out of order and could not be put, 414.

1895.

58. A motion being made for the second reading of the Bill further to amend the Civil Service Superannuation Act, Mr. Speaker ruled that the question could not be put thereon, as the Bill involved a public expenditure and could only be initiated by a resolution in Committee of the Whole, recommended by the Crown, 147.

III. SPEAKER'S DECISIONS ON QUESTIONS OF FORM AND ORDER—*Continued.*1895—*Continued.*

59. A motion being made for leave for the Railway Committee to sit during the time that the House is in session; and objection being taken thereto on the ground of want of notice, or the absence of a Report on the subject from the Committee; Mr. Speaker ruled that for certain reasons set forth, the question should not be put to the House on the present occasion, 241.

1896—January Session.

60. A motion having been made to adjourn the House for two weeks, and objection being taken thereto on the ground of want of notice. Mr. Speaker decided that the objection was well taken and the motion could not be put, 8.
61. On a motion for the second reading of a Bill to amend the Customs Tariff, objection was taken on the ground that as it would make a charge on the revenue, the Bill ought to have originated in Committee of the Whole, &c.; Mr. Speaker decided that the point was well taken and the Bill could not proceed, 156.

1898.

62. An amendment being proposed to the second reading of a Bill, Mr. Speaker ruled the said amendment out of order on the ground that it directed a specific expenditure of money which should be initiated by the Government under the constitutional checks required by section 54 of the B.N.A. Act, and Rules of the House relating to grants of money, 74.
63. Petitions being presented asking for certain appropriations of public money, Mr. Speaker decides that they cannot be received, as the granting of the prayer would involve the expenditure of public money not recommended, &c., 93.
64. A motion being made to print certain papers forthwith, and to suspend Rule 94 in relation thereto, and objection being taken thereto, on the ground that no notice was given, Mr. Speaker sustained the objection, 292.

1899.

65. A motion for concurrence in a Report of a Select Committee made on the same day on which the Report was presented, and objection being taken thereto on the ground that no notice had been given; Mr. Speaker ruled that the motion could not be put, 43.
66. A motion being made to lay before the House a letter written to a member of the government; Mr. Speaker ruled the motion out of order on the ground that no notice had been given, 263.
67. A member, in Committee of the Whole, having quoted from a recent speech of a minister that certain information had been furnished him, asked whether the minister should not lay the information before the House. The Chairman ruled that the point should have been taken at the time when the speech was made, and that he had no authority to force the minister to produce the information now; And the decision being appealed from the House, was sustained, 238.
68. In Committee of Supply a member having used the expression "impertinence" to a minister, the Chairman ruled the expression to be unparliamentary; And an appeal being made from this decision, it was sustained, 290.

III. SPEAKER'S DECISIONS ON QUESTIONS OF FORM AND ORDER—*Continued.*

1903.

69. A motion being made for the second reading of the Bill to prohibit the importation, &c., of cigarettes, Mr. Speaker ruled the motion out of order, as the same should have originated in Committee of the Whole, 215.
70. A motion being made for the second reading of the Bill to provide for the inspection of textile fabrics, Mr. Speaker ruled it out of order for the reason that it should have originated in Committee of the Whole, 215.
71. Objection being taken to proceeding with a private Bill in the absence of the member in charge, Mr. Speaker decided that the objection was not well taken, 450. See Committees, 13.
72. A point of Order being raised in Committee of the Whole on a Private Bill, that the principle of the Bill cannot be discussed on a motion to amend one of the enacting clauses, a motion to refer the decision to the Speaker having carried, Mr. Speaker decided as follows: That with regard to this Bill, its principle was considered when the motion was made in Committee for the adoption of the preamble of the Bill. In the case of Private Bills the principle is supposed to be contained in the preamble, and when the preamble has been declared carried, then, according to my view, the principle of the Bill cannot be further discussed in Committee. The Committee of the Whole is now considering Clause 1 of the Bill, which contains the names of the incorporators, and on that clause it is not in order to discuss the principle of the Bill, 467.
73. On motion for the third reading of the Bill to readjust the representation in the House of Commons, an amendment was moved to recommit the Bill for the purpose of increasing the number of representatives from the province of Prince Edward Island, and objection being taken thereto on the ground that Parliament has not power to carry it into effect, inasmuch as it is contrary to the constitution, 577. Mr. Speaker stated that the point of Order being one of difficulty, he would not decide the same, but would leave the question to the House, 578.
74. Objection being taken to the third reading of the Bill to provide for the construction of a National Transcontinental Railway on the ground that any measure imposing a burden on the people should originate in Committee of the Whole, and should be recommended by the Crown, 606. Objection overruled; For Mr. Speaker's decision see pages 606 and 608.
